

ATTENZIONE: Stampare al 100% (deselezionando l'opzione "adatta al foglio").

Per essere sicuri di aver stampato correttamente potete misurare le sagome e verificare la misura letta con quella riportata sotto ogni sagoma. Confrontate poi l'anello in vostro possesso con le sagome: sovrapponendo l'anello alla sagoma, quest'ultima deve rimanere visibile all'interno dell'anello senza che ci sia spazio tra la sagoma e l'anello reale.
